## Josephine County

### Primary Care Providers (PCPs)

This directory lists all Primary Care Providers (doctors and nurse practitioners) in your area who accept the AllCare CCO. If your PCP is on this list, you may stay with him/her. PCPs with an \* by their name are open to new patients. This directory is current as of **January 31, 2018**. Please contact Member Services before selecting a new PCP, as availability changes frequently. Also contact our Member Service Department if you need the Directory in another language, in large print, on a computer disk, on an audiotape, in person or in Braille. Member Services Department, (541) 471-4106; toll free, 1 (888) 460-0185; or TTY (hearing impaired), 1 (800) 735-2900. Directories are also available on our website at [www.allcarehealth.com/medicaid](http://www.allcarehealth.com/medicaid).

### Si no habla Inglés

Si no habla Inglés, o no oye bien, o tiene algún impedimento al hablar, usted puede conseguir servicios gratis de interpretación. Favor de contactar (541) 471-4106, 1 (888) 460-0185, TTY 1 (800) 735-2900.

### Patient Centered Primary Care Home (PCPCH)

The PCPCH program shows primary care clinics that are known for offering a higher level of patient care. Clinics work to help patients better their health with innovative care. They are known for better office access, and organization of care.

Clinics with **PCPCH** next to their name are PCPCH certified.

If you are hearing impaired and a TTY number is not listed  
for the provider you are calling, please call 711.

## Selecting a doctor

You must choose a doctor or nurse practitioner as your “Primary Care Provider” (PCP) before you may receive services from AllCare CCO.

Each person in the family must have a PCP. Each person in the family may have a different PCP. There are three kinds of doctors and nurse practitioners who may serve as your PCP:

- Family Medicine – treats children and adults.
- Internal Medicine – treats only adults.
- Pediatrician – treats only children.

Your PCP (doctor or nurse practitioner) will:

- Get to know you and your medical history;
- Provide all your medical care;
- Keep your medical records up-to-date and in one place;
- Send you to a specialist, if needed; and
- Admit you to a hospital, if needed.

If you already have a PCP (doctor or nurse practitioner), look in this directory to see if he/she is listed. If your PCP is not in our directory, you must choose one who is.

Choose a PCP (doctor or nurse practitioner) who is easy to get to—one who is close to where you live or work. After you have made your choice, please:

- Fill out the **pink** “Primary Care Provider Selection Form” in the new member packet.
- Fold and mail the pre-stamped form.
- A new Medical Identification card, with your doctor or nurse practitioner’s name and phone number printed on it, will be sent to you.

**OHP requires you to select a PCP within 30 days.** If you have not returned your selection form within two weeks, we will assign a PCP for you.

## Meeting your new doctor

**After you get your AllCare CCO Identification Card, please have a physical exam with your new doctor or nurse practitioner within 90 days.**

This first visit helps your PCP get to know you and your medical needs before you get sick.

### Cave Junction

#### CAVE JUNCTION FAMILY MEDICINE **PCPCH**

114 West Palmer, Cave Junction . . . . . (541) 592-5099

*Ayoli, Deborah CPNP*

## Obstetrics and Gynecology

Women are encouraged to have an annual physical exam. You may go to your PCP for your annual exam, or you may go to a gynecologist. However, if your gynecologist wants to see you for a follow-up to your annual exam you will need a referral from your PCP. If you want to see the gynecologist for other women's health-care problems, you will need a referral from your PCP.

500 SW Ramsey Ave., Grants Pass . . . . . (541) 472-7000

Transportation

**READYRIDE** . . . . . (800) 479-7920

ReadyRide provides rides to and from AllCare CCO-covered appointments when no other ride is available. AllCare CCO members can get rides to covered medical, dental, therapy, counseling, and behavioral health appointments. Please call at least **48 hours** before you need your ride. Rides for the same day are only scheduled for urgent needs and hospital discharges. Call between 8 a.m. and 6 p.m., Monday through Friday. Follow the prompts to schedule an urgent ride after-hours.

## When You Are Sick

Please call your Primary Care Provider (PCP) when you become sick. Tell the receptionist or nurse what is wrong so they can determine whether or not you need a same-day appointment. Take your AllCare CCO Identification Card and your DMAP Medical Care card to your appointment.

If you become sick at night, on weekends or holidays, call your PCP. Your PCP provides medical care 24 hours a day, seven days a week. If your PCP is not working that day, the answering service will refer you to another doctor on-call to answer your PCP's calls.

## If Your Illness Is Urgent

An urgent medical problem is one that needs attention soon to prevent harm to your health, but is not an emergency. If you are sick, call your PCP. Your PCP, or the doctor on-call, will either:

- schedule an appointment with you,
- give you medical advice over the phone, or
- send you to an Urgent Care facility or a hospital.

Do not go to an Urgent Care facility or hospital for care that could be provided by your PCP.

Do not go to an Urgent Care facility for routine care that could be provided by your PCP, unless your PCP sends you.

## What To Do In An Emergency

**If you believe you have an emergency medical condition, call 9-1-1 or go directly to the emergency room.**

An emergency medical condition means you have symptoms that are severe. (Examples of emergencies include, but are not limited to: unusual or excessive bleeding, acute abdominal or chest pain, suspected heart attacks, serious injuries or burns, poisoning, unconsciousness, convulsions, difficulty in breathing, or similarly acute conditions.) You must believe your health will be in serious danger if you do not get help right away. This includes your unborn child's health if you are pregnant.

**If you are hearing impaired and a TTY number is not listed for the provider you are calling, please call 711.**

If you are not sure your condition is an emergency, call your Primary Care Provider. Your PCP, or the on-call doctor, will instruct you what to do.

**Do not go to a hospital emergency room for care that should take place in your PCP's office. Care for sore throats, colds, flu, back pain, tension headaches or other routine illnesses are not considered an emergency.**
